

ROSWELL PARK CANCER INSTITUTE, NY, USA

Zain Khan

Dr. Khurshid Guru, Urology

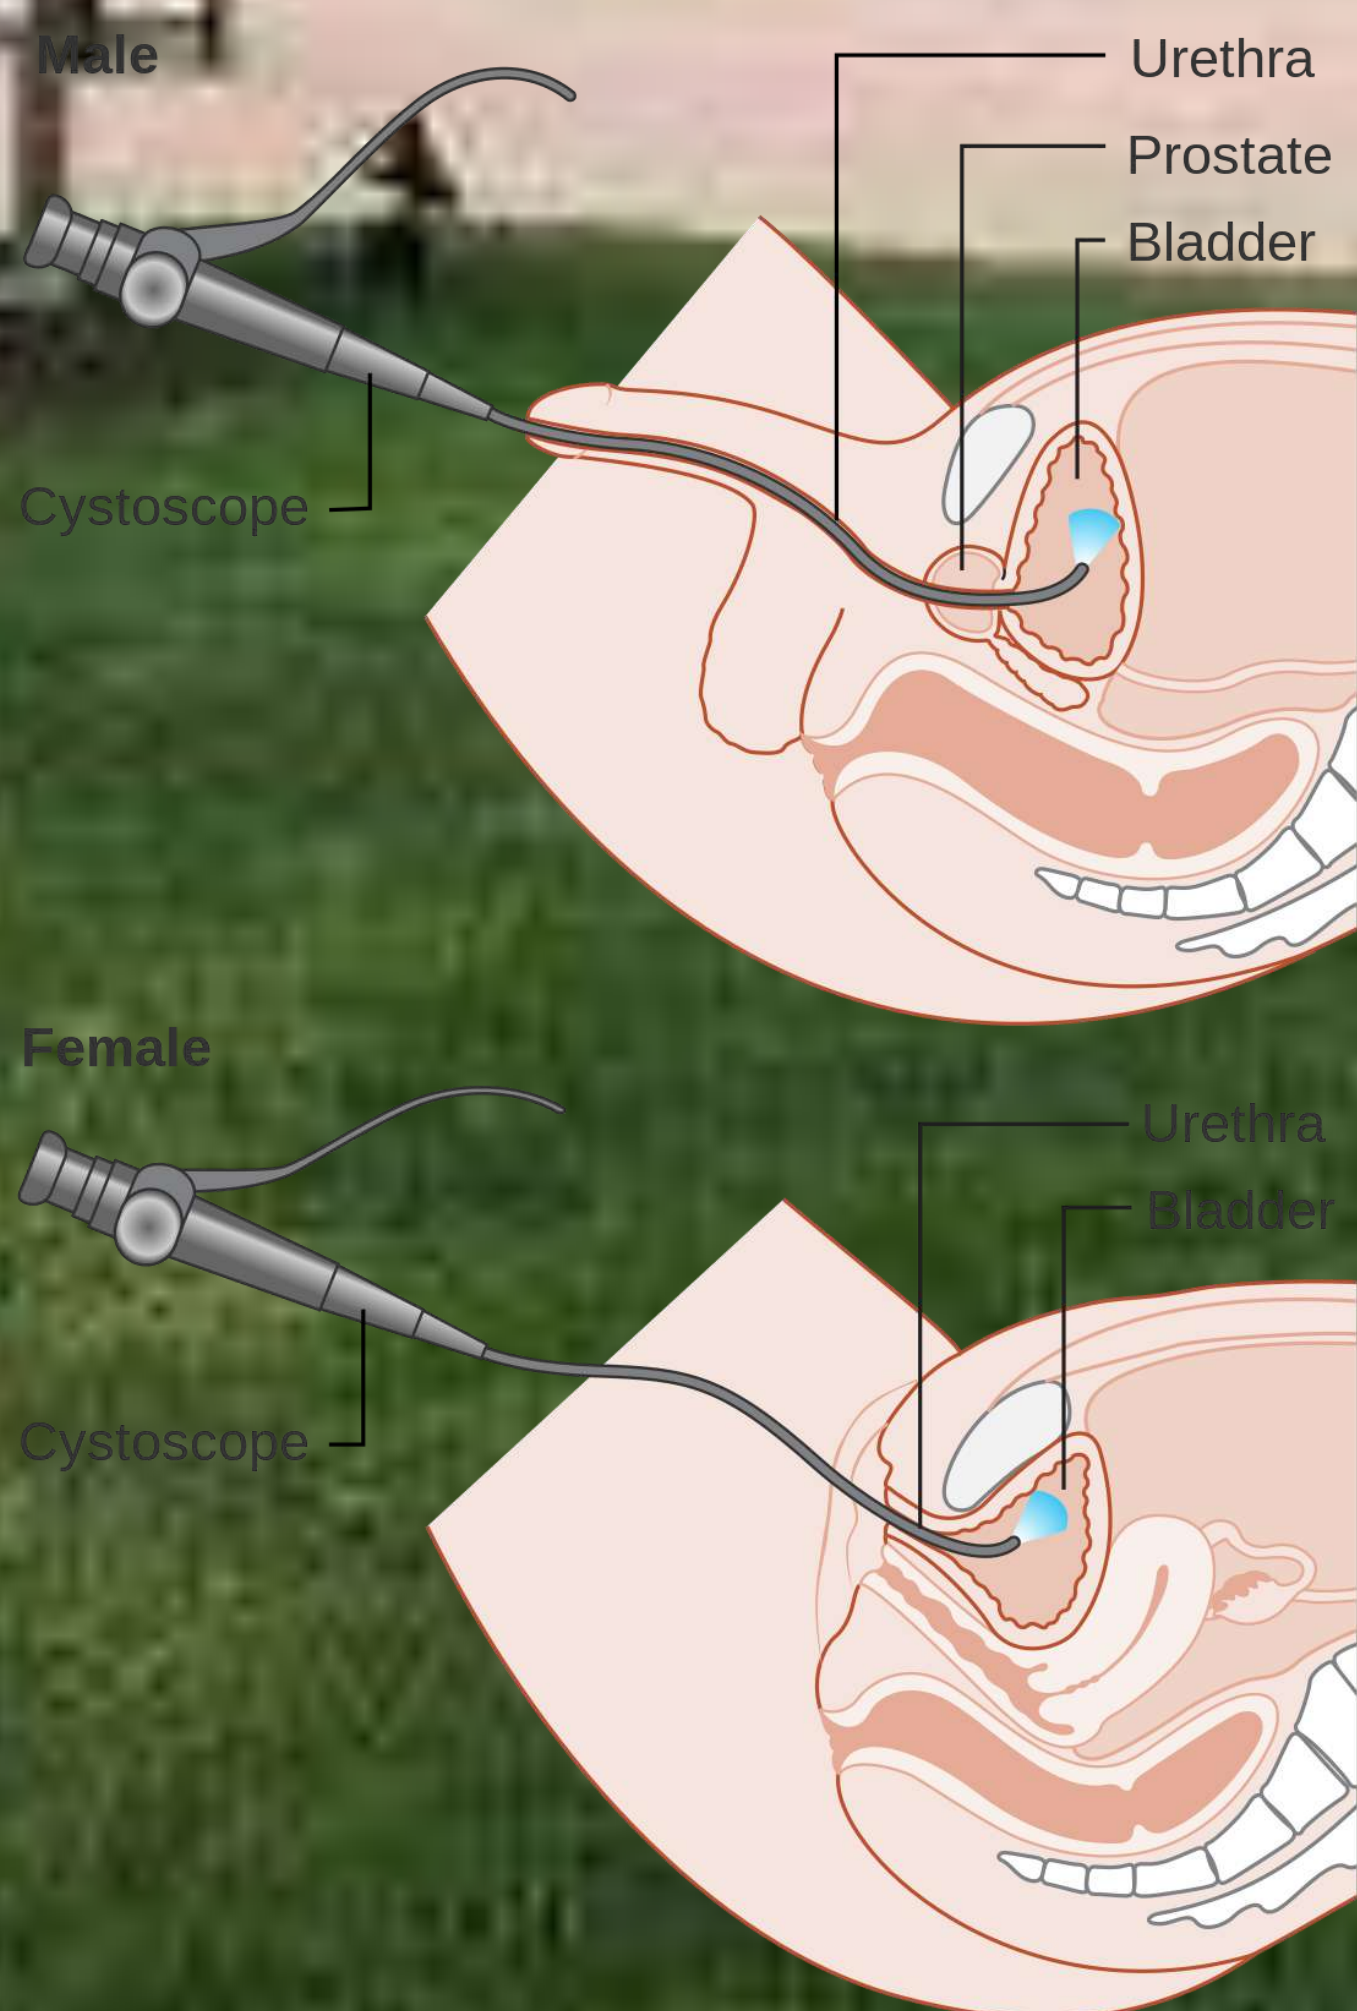

Why Roswell Park?

Roswell Park Cancer Institute is well known for its constant pioneering in cancer treatment and surgery. Observing Dr Khurshid Guru, a Genitourinary Surgeon, would have given me exposure to urology and surgery

Experiences in Roswell Park

I had undergone an observer-ship under Dr. Khurshid Guru. I had seen how a GU surgeon operates in the theater and in clinic, and I have also visited ATLAS labs, seeing potential innovations in surgical equipment and a urological study. I have seen cystoscopies, a urodynamics study, product design for surgical instruments, and seen the Da Vinci Surgical Robot.

Outside Roswell

Buffalo, New York is a very small suburban city within the state, and it has many diverse communities within the city which was enjoyable to visit.
